

FISCHBEIN CO. **TECH NOTES** #52

DATE: January 26, 2005

FROM: Technical Service Dept. & Engineering Dept.

SUBJECT: Pneumatic Replacement Parts

Fischbein has begun to use Mac Valve pneumatic products. Testing here at Fischbein and in the field has established the new valves to be more reliable and durable than any other valves previously used by Fischbein. All future sewing systems will be equipped with Mac Valve parts. Starting March 2005 Mac Valve pneumatic products will be used on all DRC 300 machines. Retrofit replacement valves for existing sewing systems are available. Below is a list of the replacement part numbers:
